GENERAL INFORMATION

Registration/conference office... desks are occupied all day long by at least one person. Please use the desks for all your enquiries (check-out in case you need to leave early, cloakroom, etc.) throughout the day.

WiFi... is available in the hotel, but you need a voucher which you will get for free at the registration desk.

Social media... postings during the congress and even speeches are welcome - please use #CPMICG17 (besides your preferred ones).

Seating... please make sure that you take your seat early enough to avoid slipping of the speeches. Unfortunately, reservation of seats is not possible.

Networking breaks... are taking place in the lobby where you have coffee & cookies and can either visit the exhibits or meet at the discussion tables.

Lunch... is being served in the restaurant "Ambiente" at the ground level - please watch out for the signposts or ask at the registration desk.

Closing get together... will take place in the "Life Style Bar" at the ground level - please watch out for the signposts or ask at the registration desk.

LAYOUT

SCHEDULE

Welcome & 1 st Keynote	
Time	Location: Plenum
08:00 - 09:00	Registration & Coffee
09:00 - 09:15	Opening of congress and greeting to all participants by Matthias Koll, President of the PMI Frankfurt Chapter
09:15 - 10:00	Peter Taylor / Global PMO Change Expert & Author How to get Fired at the C-Level: Why mismanaging change is the biggest risk of all
10:00 - 10:30	Networking/coffee break

Speeches in three streams			
Time	Location: Maritim III	Location: Maritim II	Location: Maritim I
10:30 - 11:15	Luisa Ziemer & Johannes Mager Scrum Masters @ the Digital Factory of Deutsche Bank Scaled Agile in a Corporate Environment - It's a Long Way between Bottom-up and Top-down	Lars Sudmann Principal of Sudmann & Company Leading Beyond Limits	Lisa Simon & Torsten Otto Haufe Akademie Move your projects to a new beat
11:15 - 11:45	Networking/coffee break		
11:45 - 12:30	Dr. Roland Dumont Du Voitel Managing Partner amontis Consulting Digital mega projects in times of agility - how is this supposed to work?	Malte Foegen COO wibas Business Consultants Agile Teams Do Not Make Your Company Agile	Prof. Dr. Andreas Aulinger Lecturer @ Steinbeis Hochschule Berlin Pillars of Agile Organisations in a VUCA World
12:30 - 14:00	Lunchbreak & Networking		
14:00 - 14:45	Jürgen Ruff Internal Strategic Consultant @ SAP SE Digital transformation and its' challenges	John Donohoe Director PMO and Change Management @ Star Alliance Making the Most Important Decision - Choosing the Right Project	Rainer Wendt Managing Director masVenta Formalizing Portfolio Decision Processes with DMN
14:45 - 15:15	Networking/coffee break		
15:15 - 16:00	Till Balsler CEO TiBa Managementberatung Project Management 4.0 - How is the world of project management changing?	Prof. Dr. Frank Habermann Lecturer @ Berlin School of Economics and Law How slow thinking can significantly speed up your project	Hauke Thun Managing Director House of PM Mapping strategic changes to your project portfolio
16:00 - 16:30	Networking/coffee break		

2 nd Keynote & Closing	
Time	Location: Plenum
16:30 - 17:30	Ricardo Triana / The Practical Thinking Group Experienced Leadership & Project, Program and Portfolio Consultant, Speaker & Presenter "The Value of Project Management" PMI's 2017 Pulse of the Profession®
17:30 - 19:00	Congress closing & networking social hour

SPEAKERS & ABSTRACTS

Peter Taylor - Global PMO - Change Expert & Author

Peter Taylor is a change expert currently leading a Global PMO, with 200 project managers acting as custodians for nearly 5,000 projects around the world, for Kronos Inc. - a billion-dollar software organisation delivering Workforce Management Solutions.

He is also the author of the number 1 bestselling project management book 'The Lazy Project Manager', along with many other books on project leadership, PMO development, project marketing, project challenges and executive sponsorship, including 'How to get fired at the C-level: why mismanaging change is the biggest risk of all'.

He has delivered over 200 lectures around the world in over 25 countries and has been described as 'perhaps the most entertaining and inspiring speaker in the project management world today'.

More information can be found at www.thelazyprojectmanager.com – and through his free podcasts in iTunes.

Title & abstract of Peters speech:

How to get Fired at the C-Level: Why mismanaging change is the biggest risk of all

Leading executives, it seems, sometimes do too little about strategy implementation, do not apply the appropriate level of attention to such critical organisational change, and often relegate sponsorship and leadership to lower management; whilst they get on with their 'day jobs'. This is further stressed but the fact that many organisations are facing rapidly changing and disruptive times, with an urgent need for each strategic decision to be based on fact and hope. This presentation will explore this challenge, and since all challenges are really opportunities, will show ways to not only significantly reduce change failures but also how to dramatically raise the capability, speed, and success rates of delivering strategic change in any organisation. Using Taylor's '5-5-5-5 model' – looking first at the five key elements that provide a successful change foundation inside any organisation before considering the five challenges that you can take on board to make a real difference. Following this will come the five tests to assess whether you do need to take any specific actions, which in turn lead into the five steps that will bring you all the way round to build that successful change foundation - if it isn't already in place.

Ricardo Triana - The Practical Thinking Group - Experienced Leadership & Project, Program and Portfolio Consultant, Speaker & Presenter

Ricardo Triana is an independent consultant in organizational project management for private and government organizations across the United States, Europe and Latin America. He specializes in consulting and training about advanced project management topics (organizational project management, portfolio and program management, troubled projects and the strategic PMO) as well as interpersonal skills (change management, leadership, conflict management and negotiation).

As member of the PMI Board of Directors 2010–2015, Mr. Triana is the Chair for 2014, served as Vice Chair during 2013 and was also the Chair of the Strategy Development Oversight Committee (SDOC) during 2012. He is a graduate of PMI® Leadership Master Class, a former president of the PMI South Florida Chapter and has held volunteer leadership positions with local and global communities, (Director for the PMI IS-SIG, mentor for the PMI Consulting SIG), on standards projects (content provider for A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Fourth Edition, quality control leader for OPM3® – Second Edition, 2008), and has actively supported the PMI global congresses.

Title & abstract of Ricardos speech:

“The Value of Project Management” PMI’s 2017 Pulse of the Profession®

The 2017 Pulse of the Profession® presentation, you will learn what PMI’s latest research reveals in project and program results. For the first time in five years, more projects are meeting original goals and business intent and being completed within budget. While this progress is likely due to many factors, the presentation identifies the organizational investments that PMI research shows helps organizations achieve their strategic initiatives and realize their business goals. You will learn what those organizations we identify as Champions do that differentiates them from underperformers.

Prof. Dr. Andreas Aulinger - Lecturer @ Steinbeis Hochschule Berlin

Prof. Dr. Andreas Aulinger has been a full professor for organization at the Steinbeis University Berlin since 2005. Together with Markus Heudorf he has been director of the Steinbeis Institute for Organization & Management (IOM) since 2011. The institute provides advanced executive degree programs in the fields of leadership, change management, organizational management, and HR management. In 2015, Aulinger founded a community for agile organizational practice under the auspices of the organizational society gfo. His interest is especially directed at dealing with power and power distances in agile organizations.

Title & abstract of Andreas' speech:

Pillars of Agile Organizations in a VUCA world

Since people have been doing business, they did it in a VUCA-World – a world that contains elements of Volatility, Uncertainty, Complexity, and Ambiguity. With a set of classical management methods we have been reasonably equipped for the level of VUCA that we experienced during the past decades. But recently the level of VUCA increases dramatically. This increase is so massive that our classical management methods seem to be no longer adequate to cope with that new level of VUCA. Fortunately a new and additional set of “agile” management methods is readily available (i.e. scrum, design thinking, several forms of selforganization). But when companies start to put into practice these new agile methods they often realize, that these methods don't lead to increased agility. Sometimes things turn out to be even worse. Something is missing to create a real increase of agility with these new methods. Focusing on this missing link I identify three pillars of an agile organization. Classic (agile) management methods have to work alongside new (agile) management methods. And both have to be complemented by the often underestimated pillar of (agile) mindsets. But what kind of mindset is helpful to make agile methods work? How can we change from our present mindset to a mindset required in the actual VUCA-World? And is a change of mindset possible at all?

Till Balsler - CEO TiBa Managementberatung

Project management already appealed to the economics graduate during his degree studies. "Good project management prevents negative surprises and sleepless nights," says Till H. Balsler, who has been a pioneer and campaigner on the topic of project management in Germany for 35 years. Over time he became increasingly aware that PM performance cannot be improved by using software alone.

Considering this he developed his systemic overall approach to PM, known as the "four-axis cross". This approach recognises the introduction/optimisation of PM in companies as an integrative process made up of organisational development, qualification/staff development, method and process standardisation and technological support.

With Tiba, Mr Balsler has established an institute that provides expert advice, training and support for all issues relating to project management.

Title & abstract of Tills speech:

Project Management 4.0 - How is the world of project management changing?

Industry 4.0, digital transformation and agility are on everyone's lips. But how do these changes affect project work and the requirements for project management in companies and organisations? What form do work and planning processes in projects take? Is it just a discussion about "classic" versus "agile" project management? Or is a new basic approach required – project management 4.0?

John Donohoe - Director PMO and Change Management @ Star Alliance

As the Director PMO and Change Management at Star Alliance John's responsibilities include enterprise-wide portfolio management, organizational change management and project delivery. He implemented portfolio management and developed the PMO to become a strategic partner to ensure the 'right' projects were selected in the first place. He has a strong interest in strategy execution and portfolio management. He teaches portfolio management and speaks at various strategy execution & project management conferences around the world. He is PfMP certified and featured on the internationally recognized Project Management podcast "Episode 269: Portfolio Management and the Strategic Project Management Office (SPMO)".

Title & abstract of Johns speech:

Making the most important decision – choosing the right project

The decision to choose the 'right' project is far more important than the decision on how to effectively manage an ongoing project. Choosing the 'right' project takes not only a structured approach but a number of prerequisites that enable smart project selection. John will describe a structured portfolio approach as well as the prerequisites necessary to make the most of every project investment. Additionally, John describes how the PMO can provide even more value by facilitating the project decision making process and driving cultural change transformation projects.

Dr. Roland Dumont Du Voitel - Managing Partner amountis Consulting

Roland Dumont du Voitel is an experienced consultant, trainer, coach and manager in business strategy, restructuring, turnaround of enterprises, business development, marketing and much around project and change management. His major industry focus is on aeronautic & aerospace, automotive, transportation & tourism, pharmaceutical but he also has worked in several other service industries. Today, he is specialized in turnaround management in France. Leading positions in successful turnaround situations were President of Thomas Cook France, CEO of LSG Sky Chefs France, President of Gate Gourmet France, President Aerotech France et al. He has been and is a member of several supervisory boards and member of the board of some social organizations / foundations, such as VP Finance of PMIFC. He is chairman of amountis, an international network of more than 200 entrepreneurial experts around the world but major focus on Europe. Roland is the founder and Managing Partner of amountis consulting AG. Prior to this, he has been the Managing Vice President and Partner of Cresap / Towers Perrin, Managing Partner of Peat Marwick / KPMG Management Consultants and Expert of Wibera / Pricewaterhousecoopers. He started his career as Assistant Professor at the University of Mannheim and Researcher at the Institute for Empirical Research. He studied engineering, business administration, marketing and social psychology at the Universities of Berlin, Darmstadt and Mannheim. His doctoral thesis has been about the initiation of organizational change, based on an empirical study of the Institute of Empirical Research about organizational change in Germany's largest companies. He has published numerous books and articles, and has been a lecturer at several universities, since many years at the University of Heidelberg. His mother tongues are French and German, but he is fluent in English, and has workable knowledge in Italian.

Title & abstract of Rolands speech:

Digital mega projects in times of agility – how is this supposed to work?

Digitalisation headlines some of the biggest change portfolios. There is a lot of talk about disruption, “creative destruction” and re-inventing established businesses. This speech explores the apparent call for a new era of mega projects and radical changes in consideration of its contradiction with another great movement of our time: agility. It further elaborates on practical ways of resolving this conflict by applying the agile mindset as well as by introducing effective means to create a change portfolio that reflects the required changes in a less radical and more manageable fashion.

My notes

Horizontal lines for writing notes.

Malte Foegen - COO wibas Business Consultants

Malte Foegen is Managing Director of wibas GmbH, a consulting company specialized on New Work and Agility. He also teaches at the Technical University of Darmstadt. He is a Certified Scrum Trainer and applies Agility from team level up to the whole organization. He is well known for his ability to convince senior management and staff of the benefits of Agility and involve them in its implementation. Malte is co-author of the German best selling book "Organization in digital times" (Organisation in einer digitalen Zeit). He consults companies since many years.

Title & abstract of Maltes speech:

Agile Teams Do Not Make Your Company Agile

Companies are living in disruptive times that are volatile and uncertain. The challenge is to deliver delighting products and services today, and at the same time to constantly change and innovate to stay ahead. Agility is the skill to master these seemingly contradicting goals. However, Agility is a disruptive management technology. Having some teams that apply agile methods like Scrum or Kanban does not make your organization agile. Agility needs to be applied at every level of the organization: from the team level to Lean Startup; from pushing to pulling goals; from extrinsic to intrinsic motivation: from separating thinking from execution to aligning both. You can immediately recognize an agile DNA when walking into a company. Therefore, we show you how agile companies work by showing you how real agile companies look. And if you think: hey, we are already doing this, be warned: the more you think you are agile, the less it is true.

Prof. Dr. Frank Habermann - Lecturer @ Berlin School of Economics and Law (HWR Berlin)

Frank Habermann ist Professor für Betriebswirtschaft an der HWR Berlin, Gründer der Becota GmbH und Co-Initiator der Projektgemeinschaft "Over The Fence".

Nach seiner Promotion am Institut für Wirtschaftsinformatik im Deutschen Forschungszentrum für Künstliche Intelligenz war er Gastprofessor an der Michael Smurfit Business School in Irland sowie Mitglied der Geschäftsleitung der IMC AG.

Als Berater und Manager war Frank Habermann für mehr als 50 Projekte in über 20 Ländern verantwortlich. Seine wissenschaftlichen Leistungen, die sich stets am Wert für die Praxis orientieren, sind mit mehreren Preisen ausgezeichnet.

Title & abstract of Franks speech:

Langsames Denken in Projekten - ein Manifest

Vorgefasste Denkmuster behindern unsere Fähigkeit zur Problemlösung. Gerade in neuartigen Projekten benötigen wir deshalb "langsames Denken", das Voraussetzung für Design Thinking ist. Prof. Dr. Frank Habermann stellt Prinzipien und Techniken vor, die Wahrnehmungsverzerrungen vermeiden helfen. Mit einer einfachen Übung zum Selbsttest und einem Praxisbeispiel verdeutlicht er den Nutzen seines Ansatzes und appelliert mit dem "Manifest für langsames Denken" für eine neue Herangehensweise an anspruchsvolle Projekte.

Luisa Ziemer & Johannes Mager - Scrum Masters @ the

Digital Factory of Deutsche Bank

Luisa and Johannes both have a 10-year IT background in the financial industry. Coming from traditional Project Management, they have converted to Scrum Mastering over the last 5 years and delved into the art of Scaled Agile. Together, they drive the Transformation of Deutsche Bank's Mobile Apps into a Lean-Agile Organization.

Title & abstract of Luisas/Johannes' speech:

Scaled Agile in a Corporate Environment – It's a Long Way between Bottom-up and Top-down

For customer-centric software development, there currently seems to be no better way than setting up Agile Teams. Delivering in short cycle times and with a high degree of self-organization, these teams shall be able to deal with volatile customer needs and uncertainty. "That's great, we also have some of those" is what many senior managers tend to reply. But can this be enough?

When trying to expand the principles of Scrum Teams up on the corporate ladder, existential management questions will quickly surface:

- * How can we guarantee quality and compliance if we are told to increase trust but to reduce procedures and controls?
- * How is it possible to ensure steering and coordination for self-organized teams?
- * What role is left for me if my employees are empowered to solve problems themselves?
- * And who can send me an exec summary of that Lean-Agile Mindset that I am supposed to have?

This presentation will share insights and best practices from our own journey of Scaled Scrum in Deutsche Bank's Mobile Apps. How are we able to stay agile with challenges as diverse as regulatory requirements and global sourcing strategies, collaboration with impatient start-ups, a mighty enterprise architecture and an abundance of stakeholders from all over the company?

Lisa Simon & Torsten Otto - Haufe Akademie

Lisa Simon - Master in Economic Psychology and Certified Project Management Specialist (GPM - Level D) - has several years of experience as a consultant in project management and organizational projects. Her passion is to accompany organizations in change processes and the desire to make change management more than just a buzzword. Currently she is working as a senior consultant and trainer within the Competence Center for project, process and change management at the Haufe Akademie.

Torsten Otto - Diplom-Betriebswirt (FH) and Certified Project Management Professional (PMP®) - has more than 15 years of experience as a consultant, coach and trainer for project and process management topics. As Head of the Competence Center for project, process and change Management at the Haufe Academy, it is his passion to empower companies through consulting, qualification and coaching in these topics, to support change and deal with their challenges.

Title & abstract of Lisas/Torstens speech:

How gaming and collaborative tools make your projects more successful

Due to disruptive times and the associated constant change the need for project and change management increases constantly. In their speaker slot Lisa Simon and Torsten Otto will talk about the limitations of classical project and change management approaches and new possibilities to improve. You will get to know new methods and approaches, which aim for continuous changeability, innovation and collaboration. In this context, you will gain some insights how Haufe is doing their internal change and how the company uses their own learning experience for their customer projects. Get into a discussion about current problems, challenges and solutions for companies and their change projects.

My notes

Jürgen Ruff - Internal Strategic Consultant @ SAP SE

Jürgen Ruff hat als Programm Manager für die SAP Sales Universität ein neues Training zum Thema Digitale Transformation mitentwickelt und global ausgerollt. Er ist Co-Author des Buches "Neue Komplexität in Personalarbeit und Führung" mit dem Beitrag "Globaler Rollout des Challenger-Vertriebsansatzes im Rahmen der digitalen Transformation", welches im März 2017 beim Springer Gabler Verlag erschien.

Title & abstract of Jürgens speech:

Digital transformation and its' challenges

Digitale Transformation und Innovation sind derzeit in aller Munde. Alle großen Unternehmen haben sich diesem Thema angenommen und das Tempo der Entwicklung nimmt rasant zu. Dies hat auch Auswirkungen auf die Unternehmenskultur und neue Anforderungen, wie Mitarbeiter miteinander arbeiten. In seinem interaktiven Vortrag wird Jürgen Ruff Aspekte der digitalen Transformation und Innovation beleuchten und mit den Teilnehmern erörtern, wie sich das auf ihre Arbeit als Führungskraft und Projektleiter auswirkt.

Lars Sudmann - Principal of Sudmann & Company

Lars Sudmann is the principal of Sudmann & Company. He is a speaker with background in strategy and business leadership, for instance as an executive at Procter & Gamble.

Lars has in-depth experience in change leadership and innovation. He is a lecturer at the universities of Braunschweig and Aachen (DE) and is frequently invited to speak at major conferences in Europe and the US.

Lars is a veteran TEDx speaker, his latest talk on innovation was released in December 2016.

Title & abstract of Lars' speech:

Leading Beyond Limits

The world of business has changed and will continue to do so: business is volatile and complex, the speed of innovation is fastpaced. But how do you lead projects & programs effectively in such an environment, and how to you drive the transformation? How do you continue to have a mindset of innovation, disrupt markets and go beyond limits? In this highly engaging keynote presentation we will jointly explore six areas of transformational leadership, including tools and strategies that can be applied the next day.

My notes

Hauke Thun - Managing Director House of PM

Hauke Thun is founder and Managing Director of House of PM GmbH. The company specializes in providing project management services, consultancy and training addressing all aspects of professional project management for medium sized companies and large corporates. Before starting the company in 2003 the graduate computer engineer held a number of different positions in the fields of software development, project management, and corporate management. The stages of his career include IDM Inc., G+J EMS GmbH, HTC Babelsberg GmbH, e-dict GmbH (Managing Director), 7d AG (Management Board), and divine GmbH (Director Quality Management). Thun disposes of certifications according to GPM / IPMA Level D, GPM / IPMA PPMC, PMI® / PMP®, OGC / Prince2®, and ScrumAlliance / CSM. In addition, he is active at an international level, for instance as assessor for the International Project Excellence Award (IPMA) and as IPMA Delta Foreign Assessor.

Title & abstract of Haukes speech:

Mapping strategic changes to your project portfolio

Success is a result of doing the right things. With respect to corporate's success this means to invest resources exactly into those projects which best fulfill the strategic targets and business objectives. In times of fast changing market demands and digital transformation, in which a quick time to value strengthens the competitive edge, many companies have to reconsider their strategic direction and change their market approach significantly. Consequently their project portfolio will have to be restructured as well. That's where Project Portfolio Management comes into play. A clearly regulated and reliably active project portfolio management enables evidence-based and binding decisions. Projects are prioritized; selected projects are started and then stopped again when they no longer meet the portfolio criteria. On top it can be checked if all strategic targets will be underpinned sufficiently with projects in the portfolio. For a successful implementation it is important to focus on a minimum overhead and make it easy to use in day-to-day business. Based on practical experience in midsize enterprises the presentation comes up with essential success factors and best practice samples to overcome typical challenges.

Rainer Wendt - Managing Director masVenta

Rainer Wendt has been working in the IT business for over 25 years after he has studied electrical engineering/communications engineering in Aachen, Germany. As Managing Director of masVenta Business GmbH he is actively involved in industry projects as coach, consultant, and project manager. Before launching his own company in 2007 he has been working as IT Project Manager for Siemens and Amdocs leading international projects at SAP, BMW, Deutscher Bundestag Berlin and Vodafone Deutschland. Besides learning and teaching he has been engaged since 2009 by E.ON Global Commodities SE in Düsseldorf for various Business Analysis and Project Management matters. Rainer Wendt is Certified Business Analysis Professional CBAP®, Project Management Professional PMP®, Professional in Business Analysis PMI-PBA® and Agile Certified Practitioner PMI-ACP®. He is President of the German Chapter of the International Institute of Business Analysis.

Title & abstract of Rainers speech:

Formalizing Portfolio Decision Processes with DMN

Decisions about project investments are usually driven by various factors. In many cases, companies are not following a structured process for decision making, but have steering boards or committees in place which decide on a case-by-case basis where projects get a permission for kick-off or not. A simple set of Business Rules can help categorizing projects and formalizing investments decisions You will learn

- Why it makes sense to categorize projects into classes, depending on the required investment, the expected outcome, the risk profile and the strategic relevance
- How Portfolio Management and PMO can benefit from a set of Business Rules and a formal decision process which is unambiguously documented with the help of the Decision Modelling Notation (DMN).

SPONSORS & MEDIA PARTNERS

WWW.HAUFE-AKADEMIE.DE

Die Haufe Akademie ist einer der führenden Anbieter für Qualifizierung und Entwicklung von Menschen und Unternehmen im deutschsprachigen Raum. Passgenaue Lösungen, einzigartige Services, höchste Beratungskompetenz und individuelle Qualifizierung vereinfachen den Erwerb von Fähigkeiten und erleichtern nachhaltige Entwicklungen. Maßgeschneiderte Unternehmenslösungen, ein breites e-Learning Portfolio, Managed Training Services und Consulting unterstützen HR-Verantwortliche und Entscheider bei der Zukunftsgestaltung für Unternehmen. Mehr Kompetenz für Fach- und Führungskräfte ermöglicht ein umfangreiches Angebot an Seminaren, Qualifizierungsprogrammen, Lehrgängen und Tagungen.

WWW.TELEKOM.DE

Wir bereiten den Weg in die Gigabit-Gesellschaft. Als führendes Unternehmen der Kommunikations- und Informationstechnologie gestalten wir mit innovativen Lösungen für Privat- und Geschäftskunden die digitale Welt von morgen. Unser Antrieb: Menschen einander näher zu bringen und ihr Leben nachhaltig zu vereinfachen und zu bereichern.

Dazu vernetzen unsere Mitarbeiter, was vernetzt werden kann. Verändern mit wegweisenden Cloud-Angeboten die Wirtschaft, machen mit Magenta Security Lösungen das Netz sicher und lassen Autos miteinander sprechen. Sie machen andere Unternehmen mit neuen Geschäftsmodellen und Innovationsprojekten wie Artificial Intelligence, IoT, M2M und Industrie 4.0 startklar für übermorgen.

Durch die Zusammenarbeit mit zwei der renommiertesten internationalen Universitäten und praxiserfahrenen Trainern und Consultants garantieren wir Seminare und Workshops auf höchstem Niveau. Das Ergebnis unserer Trainings sind motiviertere Projektteams und Mitarbeiter, erfolgreichere Projekte und nachhaltiger Unternehmenserfolg.

Ob in Form eines offenen Trainings oder eines auf Ihre spezifischen Anforderungen ausgerichteten, maßgeschneiderten Inhouse-Trainingsprogramms, mit TwentyEighty Strategy Execution legen Sie die Basis für erfolgreiches Projektmanagement. Unsere Kernkompetenzen sind

- Strategieumsetzung
- Portfolio-, Programm- und Projektmanagement
- Business Analyse
- Vertragsmanagement

WWW.IILPRINTING.COM

IIL Printing is a division of International Institute for Learning (IIL), a global leader in corporate training and consulting.

For more than two decades, IIL has been partnering with many of the world's largest corporations as a full-service learning solution provider.

IIL Printing extends the IIL promise of value, sustainability and exceptional customer service, providing clients with a wide range of high-quality printed materials to support their evolving needs. This includes experience in printing, packaging, and shipping more than half a million training manuals and support materials all over the world.

WWW.PROJEKTMAGAZIN.DE

Projekt Magazin ist das Online-Fachportal zum Thema Projektmanagement für Projektleiter, Projektmitarbeiter und Berater. Unter www.projektmagazin.de finden Sie praxisnahe Artikel und konkrete Unterstützung für Ihre Projekt-Aufgaben. Im Projekt Magazin schreiben Experten für Experten: In über 1800 Fachartikeln, Praxisberichten und Software-Besprechungen können Sie sich über aktuelle Trends und Entwicklungen im Projektmanagement informieren. Das Projekt Magazin erscheint mittwochs alle zwei Wochen.

BEHIND THE SCENES...

Event host... is the Project Management Institute Frankfurt Chapter e.V. Bockenheimer Landstraße 2-4 OpernTurm 60306 Frankfurt am Main (Registergericht: Amtsgericht Frankfurt am Main, Registernummer: 12145) - <https://www.pmi-frankfurt.de/>

Support... was kindly given by the PMI Chapter Southern Germany - <http://pmi-sgc.de/>, the PMI Chapter Cologne - <http://www.pmicc.de/>, and the PMI Chapter Berlin-Brandenburg - <http://www.pmi-berlin.org/> and last but not least the PMI regional office in Brussels.

Diligent helpers organizing this event... were all PMI Chapter volunteers, i.e.:

- Ø Laurina Bragdon, PMP - Volunteer Administration
- Ø Kerstin Dropmann, PMP - Event Photographer
- Ø Susan Lose, PMP - Volunteer Event Website
- Ø Catalin Ion, PMP - Volunteer Administration
- Ø Ingo Kusch, PMP - Volunteer Infrastructure
- Ø Karsten Meinders, PMP - Volunteer Content
- Ø Bernd Töpfer, PMP - Volunteer Marketing/Public Relations
- Ø Dr. Andreas Berning, PMP & VP Marketing & Public Relations PMIFC - Marketing/Public Relations/Event Website
- Ø Maen Elhemme, PMP & VP Events PMICC - Facilitator/Risk Management
- Ø Matthias Koll, PMP & President PMIFC - Project Lead
- Ø Kurt Lehberger, PMP & VP Sponsors & Fundraising PMIFC - Sponsoring
- Ø Pierre Ngassa, PMP & VP Information Technology PMIFC - Administration

The End... well the end of the event is not the end. Presentations, pictures and video recordings of the speeches will be made available as soon as possible on the PMI Frankfurt Chapter website - you will get an e-mail notification from us.

Moreover, we hope that you have returned the filled feedback form which was put into the congress package. If not, please drop us a note under info@pmi-frankfurt.de and we will send the form to you via e-mail and would encourage you to return it to us - only with your valuable feedback we'll be able to make the next event even better.
